

OffTheWalls[®]

[] Habillage d'espace sur-mesure

Collection 2017

Réalisé par Guillaume Klein

[off-the-wall] - Adj : Expression anglo-saxonne qui qualifie quelque chose d'inattendu, d'unique, d'original, d'étrange, d'extraordinaire, de décalé, de saugrenu, d'amusant, d'extravagant, de « funky ».

Off The Walls® a été créée en 2008 par Guillaume Klein, designer graphique français diplômé des Beaux-Arts, section architecture et design, indépendant depuis plus de quinze ans.

Designer d'environnement, il conçoit des installations et crée des modèles graphiques originaux et uniques, adaptés pour l'habillage d'espaces ou d'objets.

Modèles sur-mesure haut de gamme et entièrement personnalisables

Découvrez la nouvelle collection de modèles personnalisables.

Cette collection se veut originale tout en restant élégante dans un style épuré et graphique. Sa volonté est d'offrir de nouvelles atmosphères en jouant sur l'appréhension de l'espace à travers une série de trompe l'œil, de motifs et de bas-reliefs. Ce style immersif donne subtilement de la profondeur, il transforme et dynamise l'espace en jouant avec les perspectives.

Le design de la collection s'inspire principalement de la nature avec des formes abstraites, organiques, paramétriques ou géométriques simples dans un esprit moderne, pop, futuriste et retro-vintage revisité.

Les modèles sont proposés avec différentes déclinaisons de couleurs et de rendus.

Les modèles sont présentés par défaut au format 2,5 x 4 mètres, toutefois ils restent pour la plupart totalement personnalisables.

Pour un résultat vraiment unique, il est possible de personnaliser le modèle choisi selon différents critères :

- les dimensions, selon la surface à couvrir
- les couleurs et les tons
- l'échelle du motif et du visuel (pour la plupart des modèles)
- le support d'impression (plus d'informations sur la page [services](#))

Chaque impression est une création unique réalisée exclusivement sur commande.

Les différents modèles sont étudiés avec précision et souci du détail pour être admirés de près comme de loin, avec un piqué de très haute qualité, quelle que soit la taille finale.

Les modèles peuvent être appliqués sur toutes les surfaces intérieures (murs, sols, plafonds) et extérieures (panneau en aluminium, en plexiglas ou en bois).

Les impressions sont réalisées en France et en Allemagne chez des artisans reconnus qui respectent des normes de qualité, de sécurité et environnementales tels que Architects Paper pour le papier peint. Le tout pour un résultat optimal et haut de gamme.
